

# WorkMagic

AI-driven capabilities on Windows 11 Pro devices with Microsoft 365<sup>1</sup>

## Copilot for Microsoft 365

Copilot for Microsoft 365<sup>2</sup> works alongside you to unleash creativity and unlock productivity using natural language prompts.

**70%**

of Copilot users said they were more productive<sup>3</sup>

**57%**

of Copilot users said it made them more creative<sup>3</sup>

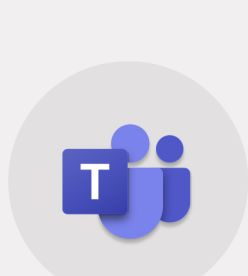

### Turn your words into a powerful productivity tool

**84%**

said Copilot makes it easier to take action after a meeting<sup>3</sup>

**87%**

said Copilot makes it easier to get started on a first draft<sup>3</sup>

#### Collaborate more effectively

- Missed a meeting or joined late? Copilot will capture notes for you and summarize anything you missed
- Copilot users summarized meetings nearly 4x faster (3.8, in 11 minutes and 13 seconds, compared to 42 minutes and 34 seconds<sup>3</sup>)

#### Elevate your writing

- Quickly create a first draft of a proposal by linking your notes from another Word doc
- Copilot saved 6 minutes on writing first drafts<sup>3</sup>

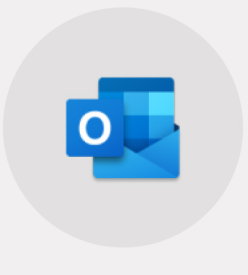

#### Make sense of your data

- Ask Copilot to analyze your data for specific trends and create professional looking data visualizations like charts and graphs
- Simply prompt Copilot to “Show all data insights” or get specific and ask “What was the most profitable product in Q4?”

#### Turn inspiration into striking presentations

- Easily turn your inspiration into stunning presentations from other documents or notes
- Prompt Copilot to use meeting notes to create a pitch deck or to add a slide based on a copy of an annual report summary

#### Streamline communication

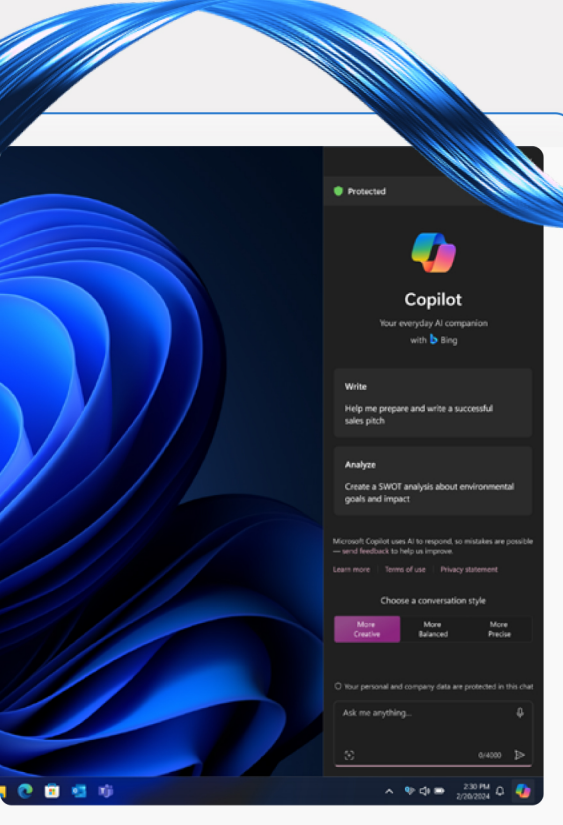

- Use Catch Up to summarize unread messages from specific senders and prioritize urgent, unread emails
- Generate replies with data from Excel files and easily edit the text length, writing style, or add more context

## Business Chat

Tame the complexity, eliminate the drudgery, and reclaim time at work as Microsoft 365 Chat can comb across your entire universe of data at work, including your emails, meetings, chats, calendar, documents, and the web. Its ability to synthesize information and create things from multiple sources at once empowers you to tackle broader goals and objectives.

Access through [Microsoft365.com](https://Microsoft365.com), Microsoft Teams, or in Bing and spend less time focusing on the tools you use and more time focusing on the most important work.

- Brings together information from multiple sources
- Allows knowledge to flow freely
- Keeps everyone on the same page
- Only allows you to search and access what you are permitted to within your org

## Copilot in Windows 11<sup>4</sup>

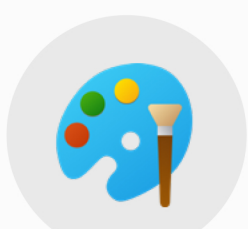

### Your personal AI assistant at work

It understands the web, your business data, and your local context informed by your preferences and permissions to help you get answers and inspiration, supports creativity and collaboration, and helps you focus on the task at hand.

Copilot in Windows provides centralized AI assistance that delivers personalized answers and helps you take action

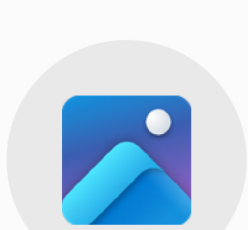

## AI-powered tools in Windows 11 to enhance your creativity and productivity

From the AI-driven Cocreator, DALL-E, in Paint to AI predictions on which apps are safe to download on Smart App Control, Copilot is easily accessible with a keystroke on all Windows Pro 11 devices.

#### Paint

Whether you want to draw a dragon, create custom illustrations for a re-brand, or anything you can think of, Cocreate helps unleash your creativity and make your own artwork with the help of AI.

#### Photos

Use AI photo editing features like background blur to pinpoint your image's focus, the automatic enhance tool, and Spot Fix which allows you to highlight a small area and use AI to filter out any anomalies like a speck of dust on a laptop.

#### Smart App Control<sup>5</sup>

Add significant protection from new and emerging threats by blocking apps that are malicious or untrusted. Smart App Control blocks potentially unwanted apps by checking to see if the intelligent cloud-powered security service can confidently predict their safety.
